

The Far East Area Commission would like to offer their condolences to the Tussing Community with the shooting of a resident over the weekend. We would like to give thanks to Commissioner Moynihan and former Commissioner Jones-Harris for requesting the Far East Area Commission's assistance in connecting their community to additional resources. We would like to share what the Far East Area Commission has put into motion for your community. The local block watch for your community, the Tussing Block Watch will be working with members of Care Coalition, Alverta Muhammad, a member of Columbus Public Health, Marian Stuckey, your City Council representative Stanley Gates and Grant Ames, your Far East Pride Center City Liaison, Lynne LaCour, your Community Liaison Officer James Poole to hold a public zoom meeting for the community.

This meeting will enable the community to discuss safety and crime strategies with appropriate entities. It will also enable questions from the community to your city leaders on Council to ask what their plans are for safety initiatives they will bring to your community. The Far East Area Commission continues to connect resources such as these to all neighborhoods within its boundaries.

Because we will have several representatives present and a lot of concerns and questions from the community, anyone wishing to speak/ask questions will need to fill out an electronic speaker slip (to the right), no later than 3p on 2/11. You will be asked to list your questions when submitting the speaker slip so that each representative may prepare and collect any data required prior to the meeting, to answer your questions. Each person who fills out a speaker slip will have 2 minutes to speak and we will call on those who filled out speaker slips in the order in which they were received. We want to ensure that everyone's concerns are heard so we ask that everyone please be respectful of each other's time.
